**Mobile:** 8790417981

**Email:** [mahesh88088@gmail.com](mailto:mahesh88088@gmail.com)

### **Work Summary:**

Experienced and dedicated Java Full Stack Developer with 3 years of experience developing enterprise level applications. Proficient in utilizing Core Java, Spring, Spring Boot, Rest API, JDBC, Data JPA and SQL for backend development and proficient in Angular, HTML, CSS, JavaScript for front-end development. Expertise in designing, developing and maintaining scalable web applications with a focus on user experience.

### **Technical Skills:**

- **Backend:** Java, Spring Boot, JPA, JDBC, RESTful APIs
- **Frontend:** Angular, JavaScript, HTML, CSS
- **Databases:** MySQL, Oracle.
- **Tools & Methodologies:** Agile, SonarQube

### **Work Experience**

**Project:** Collection Micro Services

**Client:** CITI Bank

**Experience** – DEC 2021 – DEC 2023

<b>Tool</b>	Spring Boot
<b>Methodologies</b>	Micro Web Services, Restful API
<b>Ticketing Tool</b>	Jira
<b>Build Tool</b>	Jenkins Basics
<b>Testing</b>	SonarQube
<b>API Testing Tool</b>	Postman

### **Description:**

- Modernized Citi's collections system by transitioning from monolithic to microservices architecture.
- Enabled efficient handling of high-volume transactions, improved scalability, and enhanced system resilience.
- Provided a flexible foundation for future enhancements and integrations.

### **Project2: GAD (Global Attestation Dashboard)**

**Client:** CITI Bank

**Experience** – JAN 2024 – MAY 2024

<b>Tools</b>	Spring Boot, GAD Dashboard
<b>Methodologies</b>	Restful API
<b>Ticketing Tool</b>	Jira
<b>Build Tool</b>	Jenkins Basics
<b>Testing</b>	SonarQube

### **Description:**

- Developed a centralized platform to streamline and automate the attestation process across departments, regions, and systems.
- Enabled real-time tracking and validation of critical data points to ensure compliance, data accuracy, and regulatory adherence.
- Provided a holistic view of attestation statuses, facilitating proactive issue identification and resolution.

### **Project3: CITI QUEST**

**Client:** CITI Bank

**Experience:** June 2024 - Till

<b>Tools</b>	Spring Boot, QUEST Dashboard
<b>Methodologies</b>	Restful API
<b>Ticketing Tool</b>	Jira
<b>Build Tool</b>	Jenkins Basics
<b>Testing</b>	SonarQube

### **Description:**

- Developed an analytics and reporting tool providing real-time insights and performance metrics across business units.
- Consolidated data from multiple sources to support data-driven decision-making and process optimization.
- Enabled teams to enhance customer experience and drive continuous improvement through intuitive design and powerful visualizations.

## **Responsibilities:**

- **Requirements Gathering:** Collaborated with the business stakeholders to understand and document the requirements. Presenting any new ideas, solutions or enhancements to the workflow process.
- **User Interface Design:** Designed intuitive user interfaces and developed multiple customized UI element components for better user interactions.
- **Application Development:** Developed three applications from the design to deployment closely aligning them with the specific business needs.
- **Workflow Automation:** Implemented Automated batch process using Spring and Java, to generate required data and send notifications based on the regional times across the world.
- **Performance Optimization:** Optimized the logic and SQL queries to improve the performance of the application by 30%.
- **Error Analysis and Resolution:** Meticulously identified the root causes of errors in processes, distinguishing between internal and external factors to implement effective resolutions.

## **Certifications:**

- **Oracle Certified Associate (OCA), Java SE 8 Programmer I (1Z0-808)**

## **Education:**

KLEF Deemed to Be University, Vaddeswaram, India.

Bachelor of Technology 2014-2018.
