SUMMER TRAINING:

Programming Pathshala | Full Stack Development

May 2023 – July 2023

- Developed a Job application website utilizing the MERN stack, closely resembling LinkedIn.
- Demonstrated proficiency in React for frontend development, Node.js and Express for backend APIs, and MongoDB for database management.
- Collaborated effectively with team members to meet project milestones and deadlines.
- Contributed to a dynamic development environment and gained practical experience in frontend web development techniques.

PROJECTS:

Shrink | Technologies: React.js, Express, MongoDB, Tailwind CSS

December 2024

- Developed a URL shortener web application using React.js, Express, and MongoDB, with role-based access for normal and premium users.
- Implemented core functionalities, including URL shortening for all users and custom URL creation exclusively for premium users.
- Implemented JWT-based authentication to secure the application and manage user sessions.

UniConnect | Technologies: React, JavaScript, HTML, CSS

September 2024

- Developed and deployed a university website with React, aimed at prospective students and external stakeholders, showcasing university programs, events, and admission information.
- Built a fully responsive and accessible website to enhance user experience across devices.
- Implemented best practices for security to protect user data and ensure compliance with relevant privacy regulations and standards.

Vista-Vite | Technologies: Node.js, Express.js, EJS, MongoDB

June 2024

- Developed a comprehensive full-stack housing rental website built while adhering to MVC architecture and deployed using render.
- Integrated Mapbox APIs to provide dynamic map functionality and Cloudinary for secure image storage. Designed and implemented RESTful APIs for various endpoints using Express.js, ensuring scalability, and adherence to best practices
- Leveraged Passport.js for robust authentication and authorization, alongside schema validation to ensure data integrity, scalability, and secure booking workflows.

SKILLS:

Programming Languages: JavaScript, Java

Technologies: Node.js, Express.js, React.js, MongoDB, SQL, HTML, CSS, Tailwind CSS

Development Tools and Platforms: Git, GitHub, Docker, Windows, Linux

Soft Skills: Adaptable, Problem Solving, Team Player, Time Management

CERTIFICATES:

React Frontend Development from Coursera

March 2024

Full Stack Developer from Programming Pathshala

July 2023

Java + DSA from Apna College

May 2023

EDUCATION:

Lovely Professional University

2021 – 2025

B.Tech. in Computer Science – **CGPA – 7.14**

Phagwara, Punjab

Hari Bhoomi Sr. Sec. School

2019 – 2020

Intermediate (XII) – Percentage – **82.4%**

Jind, Haryana
