

# NATHI AJAY KUMAR

## React Frontend Developer

Email : [nathi.ajay04@gmail.com](mailto:nathi.ajay04@gmail.com)

LinkedIn : [www.linkedin.com/in/ajay-kumar-b272aa221](https://www.linkedin.com/in/ajay-kumar-b272aa221)

Telephone : +91 6303726083

Hyderabad, Telangana India

## SUMMARY

Accomplished Frontend Developer to determine operational feasibility by evaluating analysis, problem definition, requirements and proposed solutions. Specialized to develop software solutions by studying information needs, conferring with users, and studying systems flow, data usage, and work processes.

## EXPERIENCE

### ReactJS Frontend Developer

#### Associate Software Engineer 09/2023 – Present

1. Committed to delivering high-quality code and maintaining optimal performance across various browsers and devices.
2. Experienced in integrating RESTful APIs and handling asynchronous operations for impeccable user experiences.
3. Employed Scrum methodologies to facilitate communication between frontend and backend teams ensured throughout the development lifecycle.
4. Collaborated in diverse teams to design and create applications in React.js for frontend development, resulting in responsive and scalable user interfaces.
5. Led a technical initiative that standardized resource naming conventions resulting in enhanced tracking and management of frontend resources.
6. Contributed to the development of new development tools which accelerated UI in deployment by 35%

#### Junior Software Engineer 07/2022 – 09/2023

1. Executed root cause analysis for critical frontend features enhancing system reliability.
2. Supported the creation of the technology roadmap influencing future frontend UI platform development.
3. Spearheaded to analyze user feedback and system performance metrics to iterate and refine the user interface.
4. Acted as a crucial liaison between technical and non-technical stakeholders, ensuring correctness of platform functionalities with end-user needs and industry standards.
5. Proven history of executing the complex, multi-faceted and competitive environments.
6. Test and debug software applications ensure meet quality standards and participated in code reviews and provided constructive feedback.

#### Trainee Software Engineer 01/2022 – 06/2022

1. Extensive contribution to the development and implementation of software systems, ensuring flawless integration of frontend components.
2. Designed and developed modular components following best standards for reusability and maintainability.
3. Explored and organized state management libraries Redux for application data flow.
4. Explored a wide range of API integration methods in React, prioritizing excellent communication with backend service.

## EDUCATION

### VNR Vignana Jyothi Institute Of Engineering and Technology

Hyderabad Telangana India

Computer Science and Engineering June 2018 – July 2022

## PROJECTS

### Clinithink Environment: React JS, Python

A medicinal project with proven AI technology extracts precise insights from complex unstructured healthcare data with exceptional accuracy and provenance to deliver meaningful user interface.

### Uber Freight Environment: React JS, Java

Delivering a great extent of relational operations to advance supply chains and move the world's goods. It thrives in complexity, building new interfaces at every stage of the journey to help businesses run as intelligently as possible.

## ACHIEVEMENTS

### Led the frontend community of practice

Spearheaded a developer community of practice , increasing development success rate and learning adoption by 60%.

### Optimized code to a larger extent

Directed code logic and functionality that consistently achieved uptime targets and service level agreements.

### Resource Naming Standards Pioneer

Developed and implemented code naming standards that were adopted company-wide, enhancing a better user experience.

## SKILLS

HTML   CSS   JavaScript   ReactJS   ES6  
RESTful APIs   Axios   Hooks   Git  
Redux

## CERTIFICATIONS

### React - The Complete Guide ( incl Hooks, React Router, Redux)

A React Certification course focused on honing development skills for the frontend environment provided by Udemy.

### Programming for Everybody (Getting started with Javascript)

Specialized training on declarative infrastructure code and automated resource development by Coursera Academy.
