PROFILE

With a Bachelor's degree in Architecture and a comprehensive skill set in urban, residential, and commercial planning, I bring expertise in design, development, and site execution. I specialize in residential projects, including home extensions, renovations, and new constructions, with a strong track record in enhancing urban infrastructure through street development in Kurnool and Nandyal. Additionally, my experience extends to interior design and execution, ensuring functional, aesthetic, and sustainable spaces. I am seeking a role in a progressive, employee-centric organization where I can leverage my technical proficiency and project management skills to contribute to innovative design solutions.
