## Summary

Experienced Front-End Developer with 2.3 years of expertise in the full development lifecycle of web applications. Proficient in HTML, CSS, JavaScript, React.js, and other front-end technologies. Committed to delivering high-quality, responsive web experiences that align with client objectives and enhance user satisfaction.

## Professional Experience

### **Hirola Infotech Solutions Pvt Ltd - Bengaluru**

#### Front-End Developer

- Successfully lead over 5 front-end development projects from concept to completion.
- Collaborated on User-centered web applications, designing responsive front-end components and engineering efficient RESTful APIs.
- Spearheaded the end-to-end development of billing software, creating a user-friendly platform for managing invoices, tracking expenses, and generating financial reports.
- Developed multiple responsive home page templates for e-commerce websites using Bootstrap.
- Collaborated closely with back-end developers to integrate APIs and services into front-end applications.
- Effectively communicated with clients and stakeholders to gather requirements, provide updates, and address concerns.
- Implemented user interface designs, optimized web application performance, and collaborated with cross-functional teams to ensure high-quality outcomes.
- Designed and developed web applications from concept to deployment using the MERN stack.

---

## Software Projects

### Billing Software

#### **Technologies: React.js, JavaScript, SCSS, Bootstrap, Redux, CSS, Tailwind**

- Led the development of a responsive billing platform with dynamic modules for managing invoices, quotations, and transactions.
- Optimized performance and enhanced cross-device compatibility, ensuring smooth and efficient user experiences.
- Built a modern, user-friendly interface using SCSS, Bootstrap, and CSS for seamless navigation and accessibility.

### SMS - School Management Software

#### **Technologies: React.js, SCSS, Bootstrap, Redux, Tailwind, CSS, Typescript**

- Developed and launched a fully responsive and feature-rich school management platform, streamlining administrative tasks and improving user interaction.
- Built dynamic components using React.js and TypeScript, enhancing scalability and code maintainability.
- Implemented state management with Redux for efficient data handling across the application.
- Optimized performance, improving page load times and enhancing the overall user experience.
- Applied SCSS, Bootstrap, and Tailwind CSS to deliver a modern, responsive UI across multiple devices.

## E-Commerce -Dynamic Web Application

### Technologies: React.js, JavaScript, SCSS, Bootstrap

- Developed and launched a fully responsive e-commerce platform, creating dynamic pages for different product categories while ensuring seamless functionality across devices.
- Engineered dynamic, reusable components to improve code maintainability and scalability.
- Implemented performance optimization strategies to reduce load times and enhance overall user experience.
- Integrated SCSS for modular and maintainable styling, along with Bootstrap for responsive design.

## Web Development Projects

---

### House Construct

#### Technologies: React.js, JavaScript, SCSS, Bootstrap

- Developed and launched a fully responsive, feature-rich website for House Construct, leveraging React.js, JavaScript, and SCSS.
- Engineered dynamic components and implemented performance optimization techniques to enhance user experience and site efficiency.
- [Explore the Project](#)

### Gravity Homes

#### Technologies: React.js, JavaScript, Redux, Bootstrap

- Spearheaded the design and development of a user-centric website for Gravity Homes, employing React.js, JavaScript, CSS, and Redux to create a responsive and interactive experience.
- Applied Redux for state management to improve application performance and ensure efficient data flow throughout the site.
- [Explore the Project](#)

### Stream Edge Homestay

#### Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery

- Developed a visually compelling, responsive website for Streamedge Homestay, utilizing HTML, CSS, JavaScript, and Bootstrap to effectively showcase the homestay's unique features.
- Emphasized a user-friendly experience with modern design elements, smooth navigation, and optimized performance for an engaging site experience on all devices.
- [Explore the Project](#)

### Bellibetta Resort

#### Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery

- Designed and developed an engaging, user-friendly website for Bellibetta Resort, employing HTML, CSS, JavaScript, and Bootstrap to effectively represent the resort's features and amenities.
- Focused on delivering a seamless user experience with a visually appealing layout, intuitive navigation, and optimized performance for various devices.
- [Explore the Project](#)

### Blue Waves Hotel Resort

#### Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, PHP

- Developed a sophisticated and responsive website for Blue Waves Hotel Resort, utilizing HTML, CSS, JavaScript, and Bootstrap to create a visually stunning and user-friendly experience.
- Integrated PHP forms to facilitate booking and enhance user interaction, ensuring a smooth and efficient booking process for visitors.
