Version Control: Git, GitHub, Bitbucket

API Integration: RESTful APIs, Web Sockets

Tools Libraries: Firebase, Google Maps, SQLite, Payment Gateways

EXPERIENCE

mTouch Labs Pvt. Ltd.

Jan. 2021 – Present

Hyderabad, Telangana

React Developer

- Developed and maintained robust, scalable web applications using **React**.
- Integrated third-party libraries and services to enhance app functionality.
- Employed state management solutions such as **Redux** for efficient state handling.
- Designed and implemented **MVC** architecture, resulting in modular and maintainable codebases.
- Collaborated closely with backend developers to integrate **REST APIs and Sockets**, enhancing application features and functionality.
- Collaborated with backend developers and UX designers to finalize requirements and ensure seamless implementation.
- Implemented responsive designs, ensuring consistent user experiences across various devices.
- Utilized Firebase for user authentication, real-time database, and push notifications.
- Ensured code quality and maintainability through regular code reviews and adherence to best practices.
- Implemented **CI/CD** pipelines to streamline the deployment process.
- Integrated payment gateways such as Pine Labs, Easebuzz, Payu, **Razorpay**.
- Integrated Git for **version control**, enabling streamlined collaboration and efficient code management.
- Implemented Internationalization (i18n), **Localization** (l10n).
- Implemented Live Tracking and Polyline using Google Maps.

Visva sustainable Foundation.

Sept. 2022 – Present

Hyderabad, Telangana

Volunteer

- A platform for **Human Empowerment** to protect environment through outreach, awareness programs and lifestyle changes.
- Participating in cleaning campaigns and raising **awareness of plastic consumption**.
- conducted educational outreach programs, empowering students with knowledge about sustainable living and **waste management**

PROJECTS

Medbuzz:

Developed an online generic medicine app and store serving pan India, delivering to over 11000 pin codes, Created both a website and an admin portal using **Angular, Express, MongoDB, AWS**. Features include product search and prescription uploads and monthly refills, ensuring access to affordable and quality generic medicines

Learn2Read:

Embark on a magical journey to Learn2Read, an online platform designed for children ages 3-8, where learning to read becomes an adventure with interactive phonics lessons, vibrant animations, captivating games, and memorable songs, building strong reading and spelling skills.

Aduri:

Developed a comprehensive CRM system for the real estate industry using **Electron.js, React.js, Node.js, MySQL, and AWS**. Managed venture plots, pricing schemes, payment tracking, associate profiles, and automated receipt generation. Enhanced customer profiles, communication tracking, and sales reporting. Implemented flexible payment schemes and automated reminders, improving operational efficiency. Achieved a 50% reduction in manual tasks and increased sales efficiency with real-time analytics and reporting

Payira:

Payira allows you to make various **bill payments** including **utility bills, vendor payments, electricity, and water bills**. Create an account, load money into your wallet, and pay bills instantly. Supported bill payments include electricity, gas, and water. Access all paid bills from your wallet transactions.

EDUCATION

Narayana Intermediate

+2 MPC

Vijayawada, AP

2013

Sri Venkateswara college of engineering

Bachelors of Electronic and communication Engineering (ECE)

Chennai, TN

2015

Certifications

React - The Complete Guide (incl Hooks, React Router, Redux)

Udemy

- A platform for Human Empowerment to protect environment through outreach, awareness programs and lifestyle changes.
- Participating in cleaning campaigns and raising awareness of plastic consumption.
- conducted educational outreach programs, empowering students with knowledge about sustainable living and waste management

INTERESTS

- Strong determination and a constant eye on solutions
- Creative ideas with a problem-solving mindset
- Open to receiving objective criticism and willing to improve.
