INTERNSHIP

Zummit InfoLabs — *bangalore*
Web Development Intern - [live-demo](#)

JULY 2024 - DEC 2024

Project Overview

I tasked with redesigning a **Scientific Blog Page** using cutting-edge frontend technologies, including:

- **ReactJS**: For building the user interface.
- **Firebase**: For storing blog data and managing user authentication.
- **TailwindCSS & DaisyUI**: For styling the application and ensuring responsiveness.
- **GitHub**: For version control and collaboration.
- **Vercel**: For deployment and hosting.

Responsibilities

- **Figma**: Translate the provided **Figma designs** into a fully functional blog page.
- **Frontend Development**:
  - Implement the design using **ReactJS** components and **TailwindCSS** with DaisyUI for consistent styling.
  - Ensure that the layout is responsive and mobile-friendly.
- **Backend Integration**:
  - Utilize **Firebase** to fetch and display blogs dynamically.
  - Enable authentication using Firebase to allow users to log in and create/edit blogs.
- **Version Control**:
  - Use **GitHub** for tracking changes and collaborating with the team.
- **Deployment**:
  - Host the redesigned page on **Vercel** for a seamless user experience.

COURSE COMPLETION

ReactJS Online Course — *Organized by Frontlines EduTech Private Limited*
March 2024 – june 2024 – [certificate](#)

Web Development Online Course — *Organized by Frontlines EduTech Private Limited*
May 2023 – Aug 2023 – [certificate](#)

TECHNICAL SKILLS

Language: JavaScript

Frontend technology:

Reactjs, Redux, TailwindCSS,HTML 5, CSS, JSON, REST APIs

Testing - Library: Vitest

Database: Firebase

UI - Library: DaisyUI

UI-Animations: Aceternity UI

Others: GitHub, Agile, Chatgpt,Windows, problem solving

EDUCATION

GIET Engineering college
BTECH

AUG 2018 - FEB 2022
CGPA/Percentage – 7.12

Mandava Institute Of Engg & Tech
Diploma

PROJECTS

Project**: Home-Space-Store -** [project-demo](#)

Home-Space-Store is a modern e-commerce app with user authentication, product search, sorting, pagination, and detailed product pages. It includes a cart, order tracking, and an about page.

- **Tech Stack:**
  - Frontend: React, Tailwind CSS, DaisyUI, Redux, React-Router-Dom, Axios
  - Backend: Strapi (API for products and user authentication)
  - Deployment: Vercel, GitHub
- **Features:**
  - **Authentication:** Login for registered users and guest user functionality.
  - **Product Listing:**
    - Search products.
    - Sort by product name, price (low to high).
    - Pagination for browsing products.
  - **Product Details Page:**
    - Breadcrumb navigation.
    - Add-to-cart functionality.
    - Detailed product information.
  - **Additional Pages:**
    - **Cart Page:** Displays items added to the cart.
    - **Order Page:** For viewing placed orders.
    - **About Page:** Information about the store.

Project:- **Ai-Resume-Maker** – [project-demo](#)

The Ai-resume-maker is used to create a resumes or cv summaries for professional and beginner by using advanced Ai according to the job role and responsibilities, skills and many other **Gemini-Ai**

Features:

- User authentication using the firebase
- Store the real time data in the firestore-Database
- Added sections for personal details, professional details,summary,education,experience,skills,projects

Tech-stack:- Reactjs | tailwindcss |Gemini-Ai |

Firebase-firestore & Authentication | DasiyUi |

Redux-toolkit | react-router-dom | Github| Vercel
