Experience

Fn7   **June 2023 – Present**
Software Engineer   *Hyderabad, Telangana*

- Implemented user authentication using the **Auth0** library to enhance security and streamline user access across the platforms.
- Developed an interactive dashboard for Admin, Consumer, and Provider roles by leveraging **ApexCharts & ECharts** libraries for dynamic data visualization
- Implemented form-based web UIs using the **jsonforms** library, enabling seamless
- Integrated **Google analytics** and built custom **User analytics dashboard** to improve data-driven decision-making and user behavior insights.
- Integrated **Intercom** for customer support and feedback collection.
- Designed and developed interactive human-to-human and AI-driven chat interfaces, enhancing client-side communication and user experience by facilitating seamless real-time interactions and intelligent automated responses.
- Tech Stack: Angular, NodeJs, Elasticsearch, OpenAI LLM model, Material UI, jsonforms

Motorola Solutions   **May 2022 – June 2023**
SDE Intern   *Vadodara, Gujarat*

- Developed small to mid-level components like 2FA(two-factor authentication), Video & Audio components, build dynamic forms & tables, bug fixing and enhancement. Developed small to mid-level components of the project. Optimized the performance of certain components. In addition, a full round of testing was conducted after each and every new build.
- Sanity Testing of the entire application before releasing load to the SQA.
- Tech Stack: Angular, Typescript, Java, PostgreSQL, Git, Azure

Projects

Helix

- Helix is AI powered tool that helps to first time founders to generate clickable **Prototype** within 3-5 mins.
- Developed user-friendly web UI using **jsonforms** library.
- Tech Stack: Angular, NodeJs, Elasticsearch, OpenAI LLM model, Material UI, jsonforms

Legal byte

- Legal byte is AI powered **document analysis** tool which helps to property buyers, financial institutions, legal professionals & real estate companies to analyze property documents faster and accurately.
- Developed user-friendly web UI using **jsonforms** library.
- Developed an interactive dashboard for admin by leveraging **ApexCharts**.
- Integrated the **Brevo API** to automate email communications for consumers (ex. advocates), streamlining the document analysis process and ensuring timely updates and smoother workflow management.
- Tech Stack: Angular, NodeJs, Elasticsearch, OpenAI LLM model, Material UI, jsonforms

Skills

Languages: JavaScript, TypeScript, C++, Core JAVA
Technologies/Frameworks: Angular, NodeJS, MySQL, ReactJS, Elasticsearch
Tools: Git, GCP
Soft Skills: Problem Solving, Leadership, Teamwork, Communication, Time management, Adaptability

Achievements

- **Winner of CodePie Competitive Programming Competition** organized by CSPIT-CE in collaboration with Codechef.
- Solved **500+** DSA problems on Leetcode
- **4 star** on HackerRank SQL
- **4 star** on HackerRank Problem Solving

Education

Charotar University of Science and Technology   **Jul 2019 – Apr 2023**
B.Tech in Computer Engineering, CGPA: **8.59**   Anand, Gujarat

Vidhyadhish Vidhyasankul   **June 2017 – Mar 2019**
HSC, Percentage: **86.66%**   Bhavnagar, Gujarat
